LIQUID SHREDDER®

Since 1983 here at Sunset, we build bodyboards and softboards Liquid Shredder designed with a unique technology that was developed in our tireless search to find new ways to have more fun while surfing. In the beginning it was just an excuse to prolong our endless summer, but now, years later, we manufacture more than 100 products that we market in many countries around the world, and our summer hasn't ended yet.

For this reason, the least we could feel is the tremendous pride of being, for many people, a part of that first encounter with one of the most gratifying and mysterious forces in our planet: the waves.

I invite you to read this Catalogue and visit the Sunset website and hope that you find whatever it is that you are looking for.

Desde 1983 en Sunset construimos bodyboards y softboards Liquid Shredder diseñados con una tecnología única y diferente, en la incansable búsqueda de como divertirnos mejor corriendo olas. Al inicio fué una excusa para no finalizar nuestro eterno verano, ahora, años después, fabricamos más de 100 productos que comercializamos en varios países alrededor del mundo y nuestro verano aún no termina.

Por ello, lo menos que podemos sentir es el inmenso orgullo de ser, para muchos, parte de ese primer nexo con una de las energías mas gratificantes de nuestro planeta: las olas.

Te invito a que leas este catálogo ó visites nuestro site y espero que encuentres en Sunset lo que andabas buscando.
